

Ekaterina Melnichuk

Web developer

Since beginning of my journey in IT, I was curious about web technologies and I was eager to uncover inside & out of web. Thus, after several years of experience as a Product Owner of web applications, I decided to switch my focus from business perspective into functional & technical part of the web. Currently, I am looking for new career opportunities as a front-end or full-stack developer with availability from August 2022.
